

TECHNICAL SPECIFICATIONS

Product Code	APH053
Mattress Dimensions (inflated)	200 x 90 x 20 cm
Mattress Weight	9 kg
Maximum Weight Limit	31.5 stone / 200 kg
Minimum Weight Limit	6 stone / 38 kg
Cell Configuration	17 (figure of 8) alternating cells plus 3 static head cells
Risk Category (Patient PU)*	Very High Risk
Pump Dimensions	27.5 x 13.5 x 9 cm
Pump Weight	1.4 kg
Pressure Range	30 - 80 mmHg
Cycle Time	9.6 mins
Power Supply	AC 220V-240V 50Hz, 0.09A
Noise Level	Below NC27
Fuse Rating	500mA
Medical Classification	Type BF Applied Part
EMC Standards	BS EN 60601-1, BS5724-1 (CE, FDA, TUV)

*Pressure ulcer risk categories (low, medium, high, very high) are determined using recognised clinical assessment tools.

Apollo 8 System

Dynamic Replacement Mattress

Product Code APH053

Dimensions: 200cm x 90cm x 20cm

The **Apollo 8** replacement mattress consists of a single set of alternating cells. The '**Very High Risk**' mattress also boasts an easy to use pump that is both quiet and efficient, reducing the need for complex training.

- Full replacement system
- Designed for users at very high risk, or have existing tissue damage
- Manual adjustment to user's body shape and position for optimum pressure care
- Dynamic therapy alternating action for lower interface pressures and gentle capillary stimulation
- Humidity management to help prevent tissue breakdown and skin maceration
- Multi-stretch PU cover is both waterproof and vapour permeable, reducing shear and friction, and can be easily wiped clean or completely removed for laundering
- Provides 12 hours backup system to remain inflated during power failure or patient transport
- Clinically effective against bacteria / viruses, with proven resistance to MRSA
- Fire retardant to Standards BS7175 Crib 5
- Clear and simple controls reduces need for complex training
- External air filters for easier maintenance
- Removable cells and connectors for lower cost servicing
- High frequency welded seams reduce the risk of fluid ingress, supporting infection control protocols

- 1 Adjustable weight settings
- 2 PU cover to prevent fluid ingress and internal mattress contamination
- 3 Waterproof with high vapour permeability for improved infection control
- 4 Static Mode enables stable surface for safer patient transfers & handling
- 5 Quick access CPR for emergency mattress deflation
